ST. TERESA'S MISSION STATEMENT

As members of St. Teresa's Parish we fulfill our baptismal commitment by being the hands and heart of Christ in our world. We achieve this commitment by accepting the human dignity of all persons, and by advocating for and serving those oppressed in our society. The community of St. Teresa's finds its strength to fulfill this through participation in the Eucharist, prayer, learning the building of relationships, and action for Justice.

CORPUS CHRISTI

Quick question: In the late Middle Ages, what was the most popular religious feast? If you said Christmas or Easter, you'd be wrong because, by the 14th century, the most popular religious feast was *Corpus Christi*. How did this come about?

In 1264, Pope Urban IV issued the papal bull, *Transiturus de hoc mundo*, establishing *Corpus Christi* as a feast throughout the Universal (Latin) Church. But the feast of *Corpus Christi* did not suddenly appear with Urban's papal bull. Celebration and controversy surrounding *Corpus Christi* had been around for centuries, both in terms of theological debate and popular devotion.

Corpus Christi – Latin for the “Body of Christ” – focuses on the Eucharist. In terms of theological debate, the issue revolves around the question of what we *mean* when we say Eucharist. In the early Church there was not much philosophical or theological discussion on the subject: Christians understood Eucharist as a mystery involving liturgy, the consecrated bread and wine, the Body and Blood of Christ, and the presence of the Lord. It was not until the eight and ninth centuries that the controversies emerged.

Basically, the issue came down to one of *consubstantiation* -vs- *transubstantiation* (*con-* is a prefix that means “with”; *trans-* is a prefix that means “changed into”). In *consubstantiation*, Christ “dwells in” the consecrated bread and wine, that is, the presence of Christ coexists with the substances of bread and wine. In *transubstantiation*, the bread and wine are changed: they are no longer bread and wine because their “substance” has been changed or transformed into the Body and Blood of Christ.

By the 13th century the *transubstantiation* position became the official theology of the Catholic Church, and it was formally and eloquently articulated by Thomas Aquinas in his *Summa Theologica*. Eventually, the *consubstantiation* position would be taken up by the Protestant Reformers, and their understanding of Eucharist – coupled with issues concerning the supremacy of the Roman Pontiff and the ordination of women – are regarded as the three “stumbling blocks” that stand in the way of the unification of the Christian Churches.

While theologians argued as to what we mean when we speak of the “Body of Christ,” devotions and practices surrounding the Eucharist had entered popular piety. Eucharistic processions and adoration before the Blessed Sacrament were common, and the Feast of *Corpus Christi* – the Thursday following Trinity Sunday – was (and is still) a Holy Day of Obligation in many countries. By the time we get to the Middle Ages, this Feast resembled our contemporary “Renaissance Fairs” with entertainment in the form of primitive theater (miracle and morality plays), plenty of food and drink, and religious celebration as well. In fact, by the 15th century *Corpus Christi* was a more popular feast than Christmas or Easter.

In the 13th century, the catechetical challenge facing the church was, “How do we teach the faithful about the doctrine of *transubstantiation*?” The most effective way to do this involved a two-fold process. First, through the liturgy of *Corpus Christi*, the clergy were able to preach and teach on the subject. And, secondly, by linking *Corpus Christi* to already existing devotions and practices, the Church could articulate, reinforce and integrate its doctrinal and theological concerns.
